"I am **Ruby Trotter**, and my hometown is Houston, TX. I am a pre-medical student studying Chemistry and Spanish at UALR, while pursuing a minor in Biology. After college, I plan to take a gap year working as an EMT and then matriculating into medical school to pursue a joint MD/MPH degree to use my passion for public health to make the most change. I have been interested in disparity and inequality as long as I can remember, and had a mother who entertained all of my questions about her jobs at the Arkansas Minority Health Commission and the American Heart Association. I am very excited to attend this conference and learn insightful information to be able to turn around and impact young women and girls as a mentor figure!"
